

Community Impact Inc

211 Main Street.  
Milford, MA 01757

# Substance Abuse Navigator

Our Services will provide the community - including those struggling with addictions, their families/loved ones, Police, First responders, Counselors just to name a few... with a 24 hour solution based service that will move the addicted person from crises, to intervention and on to treatment. Community Impact will provide our community with one phone number to call to gain access to treatment.

Community Impact will provide "door to door" service eliminating confusion, inability to find beds, that are so often the barriers that prevent people from accessing treatment.

---

**Are you or a family member using alcohol or drugs as a regular "escape?" Are you concerned about how much alcohol you are drinking? Do you use illegal drugs? Are other areas of your life suffering as a result of your using?**

Whether you are "simply" abusing alcohol or drugs or whether you are truly addicted, Community Impact can help you with the difficult task of looking at the role of substances in your life and of its effect on those around you.

Shame is often a key component in the life of someone who abuses substances. It often keeps a person using and is a big reason why many people don't get the help they need. Fear may also keep people from seeking help.

At Community Impact we will work with you, no matter what stage you're at – whether you just want to consider your options or whether you are already committed to a life of recovery.

**Location**

211 Main Street, Milford MA. 01757

Phone Number: (O) 508-422-0242 (C) 508-864-6509

**How Do I Pay?** We are required to bill for our services. Mass Health and Private Insurance will pay for many of the services.

**Who Do I Contact?** Call us at 508-422-0242 for more information or to make an appointment for an initial assessment, where we can learn more about you and your needs.

**What services we will provide**

Community Impact staff will provide Substance abuse/use service navigation to those struggling with an addiction. Our goal is to create a seamless experience for the patient and their family during their struggles by providing personalized guidance and support. The role of the substance abuse/use navigator is to eliminate barriers and manage the client's movement through their individual journey of recovery. (ex. detox, longer term programs, sober living homes, Intensive outpatient services, outpatient counseling, support groups, parent or caregiver support, medication assistance treatment, and alternative modalities of treatment)

Our services will provide a basic screening and assessment of needs to all who contact us. During this brief interview we will help you to understand and look at your situation in relation to that of addiction.

**We will help you to know that you are not alone in this process.**
