

Here is the most up to date list of places in MetroWest and the Milford area to get tested for COVID-19, according to the Department of Public Health.

Please note that before arriving at any of these locations, people who suspect they may have COVID-19 symptoms are first instructed to call their health care provider for further instructions. If they do not have a health care provider, they should call their insurer, a local urgent care, or community health center or hospital, according to the Department of Public Health.

This list may change. To see a list and an interactive map with the full list of testing sites in Massachusetts, [visit the Department of Public Health's website.](#)
